Sec. 24. (a) A general law enacted by the legislature that imposes a tax on the net incomes of natural persons, including a person's share of partnership and unincorporated association income, must provide that the portion of the law imposing the tax not take effect until approved by a majority of the registered voters voting in a statewide referendum held on the question of imposing the tax, which referendum must specify the rate of the tax.

SECTION 3. The proposed constitutional amendment shall be submitted to the voters at an election to be held November 2, 1993. The ballot shall be printed to provide for voting for or against the proposition: "The constitutional amendment prohibiting a personal income tax without voter approval."

The amendment was read.

On motion of Senator Sibley, the amendment was tabled by the following vote: Yeas 24, Nays 6.

Yeas: Armbrister, Barrientos, Bivins, Carriker, Ellis, Haley, Harris of Tarrant, Harris of Dallas, Lucio, Luna, Madla, Moncrief, Montford, Parker, Ratliff, Shapiro, Sibley, Sims, Truan, Turner, Wentworth, West, Whitmire, Zaffirini.

Absent-excused: Rosson.

The resolution was read third time and was passed by the following vote: Yeas 28, Nays 1, Present-not voting 1. (Same as previous roll call)

**REASON FOR VOTE**

Senator Nelson submitted the following reason for vote:

On February 17, 1993, I filed S.J.R. 20, which proposed a constitutional amendment that would prohibit the imposition of a personal state income tax in the state of Texas.

I strongly support any constitutional amendment that prohibits a personal income tax. Rather than support C.S.S.J.R. 49, which I feel creates a false impression that it allows for a ban on a state income tax when it does not and potentially sets up a scenario in which an income tax can be sold, not on its merits, but on the possibility of a better educational system, I will remain committed to my original legislation, S.J.R. 20, which called for an unconditional ban on a personal income tax and will abstain from voting on C.S.S.J.R. 49.

I hope we will have the opportunity to consider an amendment that clearly states that Texas will not have a personal state income tax without strings or promises.

NELSON

Senator Leedom offered the following amendment to the bill:

Amend S.B. 888 by revising Section 3(c) as proposed in SECTION 1 of the bill to read as follows:

(c) The standards established under Subsection (a) of this section may:

(1) require standard claim forms;

On motion of Senator West and by unanimous consent, the opening remarks on S.J.R. 9, C.S.S.J.R. 10, C.S.S.B. 223, and C.S.S.B. 224 were ordered reduced to writing and printed in the Senate Journal.

#### **REMARKS ON SENATE JOINT RESOLUTION 9**

Members, this resolution allows for a constitutional amendment and it provides for the issuance of \$50 million in general obligation bonds to fund the capital growth and start of funds for historically underutilized businesses. Under this program an historically underutilized business could apply for loans and loan guarantees to fund a start-up or expansion. This program would be administered through the Department of Commerce. We have similar programs for those businesses involved in agriculture production and processing as witnessed yesterday by S.J.R. 44 by Senator Harris of Dallas.

#### **SENATE JOINT RESOLUTION 9 ON SECOND READING**

On motion of Senator Lucio and by unanimous consent, the regular order of business was suspended to take up for consideration at this time on its second reading and passage to engrossment:

#### **REMARKS ON COMMITTEE SUBSTITUTE SENATE JOINT RESOLUTION 10**

Members, this resolution is also a constitutional amendment to be taken up by the voters of this state in November of this year. Members, **C.S.S.J.R. 10** would authorize the issuance of \$50 million in general obligation bonds to fund the guaranteed surety bond fund. As proposed, this program would offer surety bond guarantees to historically underutilized businesses. Members, the availability of surety bonds has

been the biggest hurdle that historically underutilized businesses have had for those who want to do business with the state or municipal governments and they have faced this for such a long time. This program, hopefully, will encourage surety bond companies to do more business with HUBs and provide for the establishment of a good relationship between HUBs and the surety bond companies.

LUCIO

**COMMITTEE SUBSTITUTE  
SENATE JOINT RESOLUTION 10 ON SECOND READING**

On motion of Senator Lucio and by unanimous consent, the regular order of business was suspended to take up for consideration at this time on its second reading and passage to engrossment:

SENATE JOINT RESOLUTION 10 ON THIRD READING**

Senator Lucio moved that Senate Rule 7.18 and the Constitutional Rule requiring bills to be read on three several days be suspended and that **C.S.S.J.R. 10** be placed on its third reading and final passage.

The resolution was read third time and was passed by the following vote: Yeas 30, Nays 0. (Same as previous roll call)

**REMARKS ON  
COMMITTEE SUBSTITUTE SENATE BILL 223**

Members, this is the enabling legislation for **C.S.S.J.R. 10**. Members, **C.S.S.B. 223** changes the focus of the surety bond program to a bond guarantee program. As proposed, the Department of Commerce would develop a surety bond guarantee program to assist and encourage surety bond companies to provide bid, performance, and payment bonds to historically underutilized businesses. This bill adds language to the definition of historically underutilized business to include that a person or persons must have a proportionate interest in the control, operation, and management of the business. It excludes businesses whose owners have a personal net worth of \$750,000 or more from being included in the definition of historically underutilized business. Finally, it creates a Texas Historically Underutilized Business Surety Bond Fund through **C.S.S.J.R. 10** giving it \$50 million in general obligation bonds. The department may not issue more than \$25 million in the first biennium beginning September 1, 1993. The department may not guarantee a contract whose principal value exceeds \$1.25 million.

**REMARKS ON  
COMMITTEE SUBSTITUTE SENATE BILL 224**

Mr. President, Members of the Senate, **C.S.S.B. 224** is a bill that is designed to establish a small business act and guidelines by which the State of Texas is required to provide assistance to small and historically underutilized businesses. This bill seeks to address a longstanding problem in which the State of Texas has a compelling state interest to correct. Eighteen years ago, during the 64th Legislative Session, Article 5190.3, entitled Small Business Assistance Act of 1975, was adopted and entailed measures which called for an attempt to award 10 percent of all purchases of articles, supplies, commodities, materials, services, or contracts of services to small businesses. **C.S.S.B. 224** establishes a goal of 35 percent of historically underutilized businesses, which include women. Section 10A of the 1975 Small Business Assistance Act also provided assistance by state agencies. This particular bill requires that each state agency establish annual small business procurement and assistance goals.

**STATEMENT ON  
HISTORICALLY UNDERUTILIZED BUSINESSES**

Senator West submitted the following statement:

It is with deepest concern that I address you today regarding a problem of institutional rejection toward small-, women- and minority-owned businesses.

I come before you seeking your support to address a longstanding problem that has a compelling state interest, that can be legislatively

mandated to correct past and ongoing practices within the State of Texas which deter those businesses from participating in procurement opportunities to the extent of their abilities.

During the 64th Legislative Session, Article 5190.3, entitled Small Business Assistance Act of 1975, was adopted which entailed measures which called for an attempt to award 10 percent of all purchases of articles, supplies, commodities, materials, services or contracts of services to small businesses. Section 10(a) assistance by state agencies called for positive steps to include small businesses on master bid lists, to inform small businesses of state procurement opportunities, to waive bond requirements where feasible, to inform small business entrepreneurs of applicable rules and procedures relating to the procurement of contracts. Section 2 requires that each state agency establish annually small business procurement and assistance goals.

Contrary to what appeared to be legislative intent during the 70th Session toward small-, minority-, and women-owned businesses, Section 5190.3 was repealed, rewritten and placed into H.B. 4, the enabling legislation for the establishment of the Texas Department of Commerce, exclusive of 5190.3 Sections 2, 10(a), (b) and (c) and Section 11.

It is this problem which we are seeking to address as well as further define, conceptually, small, minority, women or disadvantaged businesses and to make some substantive increases toward the established participation goals and their realization.

In 1992 the State of Texas spent \$3,216,942,191 (Three Billion Two Hundred Sixteen Million, Nine Hundred Forty Two Thousand, One Hundred Ninety One Dollars) for goods and services. Of that \$3,216,942,191 Billion Dollars spent, Black firms received \$2,067,404 Million Dollars (.0643 percent, not even a full percentage point), Hispanic firms received \$7,586,180 Million Dollars (.2358 percent, also less than one full percentage point) and Women-owned firms received \$46,200,568 Million Dollars (1.436 percent overall and 66.13 percent of the total amount spent with HUBs).<sup>(1)</sup> Of the \$69,856,010 that went to Historically Underutilized Businesses, Black and Hispanic firms received a total of only \$19,306,968. The HUB legislative package is designed to provide a fair share opportunity to ethnic minorities and HUBs who pay sales taxes and user fees just like everyone else but have been limited in their gainful participation.

When you analyze the data, it is clear that there is a gross inequity in the procurement practices of the State of Texas. First of all for HUB firms to receive only \$69 million (2.17 percent) out of the total of \$3,216,942,191 Billion is an "utter disgrace"; especially when we know that the combined Black and Hispanic population represents 39 percent (12 percent Black, 27 percent Hispanic) of the total state population (and the number of historically underutilized businesses in Texas are in excess of 154,000).

- \* Economic growth and development are among the highest priorities in Texas;

- \* An important part of promoting the economic growth in Texas involves

fostering economic diversification through the development of new industries and the expansion of existing businesses;

- \* The health of minority-owned and women-owned businesses is central to the overall welfare of the Texas economy;
- \* Independent and locally owned businesses have historically provided a foundation for community stability, a value that is becoming more important as we recognize the mammoth social and economic costs of economic dislocation;
- \* A strong minority-owned women-owned business sector in Texas can protect an endangered right, the right of the individual to enter productive activity as a self-reliant independent entrepreneur;
- \* The legislature can encourage growth of the minority-owned and women-owned businesses by removing unnecessary burdens imposed on those businesses and by aggressively promoting an atmosphere conducive to their development;
- \* The time has come to eliminate the economically crippling and demeaning disparities between minority-owned and women-owned businesses and other Texas businesses;
- \* The disparities of minority-owned and women-owned businesses caused primarily by the vestiges of institutional rejection dictate that the most urgent need for direct assistance lies in the minority-owned and women-owned business community;
- \* Because of past discrimination and persistent unwritten social prejudices, minority-owned and women-owned businesses face substantial barriers in obtaining the major elements necessary for business ownership, such as availability of capital, bonding, technical assistance and market opportunities;
- \* The rate of business formation for minority-owned and women-owned business is much lower than it is for the rest of the population;
- \* Minorities and women are represented in the professional, executive, and managerial work force in substantially smaller percentages than non-minorities and tend to be much more highly concentrated in the lower paying, lower status manual labor and domestic service sector;
- \* Women- and minority-owned businesses are often unable to establish the necessary relationships in the traditional networks of commerce, such as with credit sources, suppliers and potential markets for their products or services;
- \* Assisting qualified minority-owned and women-owned businesses in obtaining bonding, adequate capital and management skills for business ventures, as well as eradicating existing market barriers are essential elements of a strategy to advance business development among minority-owned and women-owned businesses;
- \* Successful strategies to advance business development should reduce crime and social dependence, save state resources in the long run, enhance self-esteem and the quality of life among Texas minorities and women.

In developing a comprehensive plan we should review and reflect on the interim studies, public hearings, testimony before legislative committees, research conducted by legislative committees, individual

legislators and other interest groups and organizations who have spent a considerable amount of time studying these issues, proposing recommendations, and attempting to implement policy changes to address the inequity as well as the inadequacy of positive results in procurement opportunities for historically underutilized businesses.<sup>(2) (3)</sup>
